PROFESSIONAL SUMMARY

Structural BIM Engineer with 3 years of experience delivering LOD 300-350 models for high-rise, low-rise and social-housing projects up to 153,811.8 m², 3 basements and 25 storeys. Experienced in leading Revit teams, developing BEP-aligned standards, coordinating with Architecture and MEP, reviewing clashes in Navisworks, and controlling model revisions and issued documentation. Strong structural-design foundation using ETABS and SAFE.

CORE COMPETENCIES

Structural BIM Delivery	Revit Team Leadership	BIM Coordination	BEP Compliance
Model & Document QA/QC	Revit Standards	Multidisciplinary Coordination	Navisworks Review

PROFESSIONAL EXPERIENCE

Phap Duyen Construction Design Co., Ltd.

Sep 2025 - Present

Structural BIM Lead | BIM Engineer

- Lead structural BIM delivery for LOD 300-350 residential projects; coordinate model updates with Architecture and MEP and control revisions before issue.
- Manage large-project model strategies using 2-3 linked production models and an aggregated model to maintain Revit performance.
- Develop and maintain Revit templates, families and naming rules aligned with project BEP requirements.

Thuc Trang Anh Project Consulting Co., Ltd. (TTAD)

Mar 2025 - Sep 2025

Structural Engineer

- Designed and reviewed structural systems from Basic to Technical Design using ETABS and SAFE.
- Coordinated models and documentation across Revit, ETABS, SAFE and AutoCAD; standardized inputs and outputs for structural BIM delivery.

Viet Long Saigon Construction Design Consulting Co., Ltd.

Sep 2023 - Mar 2025

Structural & BIM Engineer

- Performed structural analysis, developed Revit models and produced technical documentation directly from BIM models.
- Coordinated with the Client, Architecture and MEP teams to update calculations, models and drawings through construction delivery.

SELECTED PROJECTS

Lot 6-8 High-Rise Residential Development

Structural BIM Lead | 153,811.8 m² | 3 basements + 25 storeys | LOD 350

- Led the Revit team, organized linked and aggregated models, extracted drawings/schedules/pile coordinates, and coordinated clash reviews in Navisworks.

Lot 6-7 High-Rise Residential Development

Structural BIM Lead / BIM Coordinator | 153,811.8 m² | 3 basements + 25 storeys | LOD 300

- Represented the structural consultant in BIM meetings, contributed to BEP development and resolved multidisciplinary coordination issues.

My Xuan B1 - Conac Garden Social Housing

Structural Revit Lead | 32,694.7 m² | 1 basement + 19 storeys | LOD 300-350

- Managed the Revit team and developed project templates and families for consistent delivery from Basic to Technical Design.
